

Environmental Policy.

RCL is committed to reduce its environmental sustainability impact, where practicable. We bear a responsibility to consider the impacts of our actions & how they effect the environment both directly & indirectly in terms of our own operations & through our purchasing decisions.

We are committed to minimizing the impact of our operations on the enviroment & to demonstrate leadaship by intergrating environmental consideration into all our business practices.

We want our services to be part of a sustainable society, committed to;

- a) Protection of the enviroment, including preventing pollution, through responsible management of our operations.
- b) Comply with all current energy legislation, seeking to meet or better legislative targets. Minimise waste, promote recycling & the use of recycled products to hel reduce the amount of waste sent to landfill.
- c) Promote environmental awareness & responsibility amongst employees & seek to continuously improve company environmental performance.
- d) Actively promote benefits of carbon off setting.
- e) Installtion of energy efficient equipment, therefore reducing the carbon footprint throughout the companies premises.
- f) Vehicle sharing policy, the assessment & procuremet of fuel efficient vehicles.

This policy clearly identifies the responsibilities & procedures for acieving the companies stated objectives in all aspects of its activities, leading to improved environmental performance, including reductions in both Co2 & methane emissions.
